SmartSocial

Because Affiliate-Marketing can be so easy.

SmartSocial is an extension for your browser that enables publishers to create an affiliate short link in just 5 seconds to share on all their social media channels and websites.

Google for brands and products you want to share

Find all available advertisers directly in the Google search results and create a tracking link that you can use on your website and all social media channels. It is that simple.

Spot advertisers while you are surfing

SmartSocial shows your partner status while you are surfing. By clicking the icon you can see all information about the advertiser and can also create a tracking link. You will also see if you get higher comissions!

UniversalSearch

Get more attention in search engines.

UniversalSeach is accessing the full potential of organic searches. Almost 80% of clickouts in search engines are on position 1-3. If an advertiser is not listed on these positions, clickouts drop significantly. Especially with highly competitive keywords and in the long-tail this can be a bummer. This is where UniversalSearch is aimed at - by showing advertiser logos the attention and also the click-rate rises dramatically (+500%). UniversalSearch is risk free for publishers and advertisers as it is performance based via the affiliate programm of the advertiser.

Sequence-Report
The first 4 most likely eye fixation points with and without UniversalSearch.

Benefits for advertisers and publishers

UniversalSearch is a sustainable solution which benefits all participants. Search engines access new revenue streams and advertisers grow their visibility and CTR significantly.

Out of the box solution for search engines

UniversalSearch is a packed solution that can easily be integrated into your search engine and you can start earning money immediately. We cover all advertiser management, blacklist protection, visual highlighting and affiliate tracking.
